

Customer Journey Map

Date	28 June 2026
Team ID	
Project Name	Opti Crop: Smart Agricultural Production Optimization Engine
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1-Data Entry	Stage 2-Crop Prediction	Stage 3-Recommendation & Report
Actions	• Opens the application. • Registers or logs in. • Enters soil parameters (N, P, K, pH, rainfall, temperature)	• Submits the soil data. • Waits while the ML model processes the input. • Views the predicted crop	• Reads the recommended crop. • Views farming recommendations. • Downloads or saves the report.
Touchpoint	• Login Page • Soil Data Entry Form • User Dashboard	• Prediction Button • Machine Learning Model • Prediction Results Page	• Recommendation Page • Report Generation Module • Download/Print Option
Customer Thought	• Is my soil data correct? • Will this system help me? • Is it easy to use?	• I hope the prediction is accurate. • Processing should be quick. • I want reliable results.	• This recommendation will help my farming • The report is useful. • I can make better crop decisions.

Customer Feeling	Curious, Hopeful, Interested	Excited, Expectant, Confident	Satisfied, Happy, Informed
-------------------------	------------------------------	-------------------------------	----------------------------

Process Ownership	User Interface & Data Collection Module	Machine Learning Prediction Engine	Report Generation & Recommendation Module
Opportunities	•Improve form validation. •Simplify data entry. •Support multiple languages.	•Increase prediction accuracy. •Reduce processing time. •Display confidence score.	•Add fertilizer recommendations. •Integrate weather forecasts. •Provide downloadable PDF reports.
