

Project Initialization and Planning Phase

Date	28 June 2026
Team ID	
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer seeking the most suitable crop for cultivation.	Select the best crop based on soil and environmental conditions.	I do not have accurate, data-driven guidance for crop selection.	Traditional farming methods and changing climate conditions make decision-making difficult.	Uncertain about crop productivity and farming outcomes.
